DOBBINS & EWING.  
June 24-4We Do Not  
Understand

why some people will be induced to buy mixed paints that are only claimed to be composed wholly of lead and zinc and pure linseed oil, when this claim is only supported by the simple statement of the seller and not sustained by any guarantee of purity nor chemical analysis. Ask them if they will do as Rains does—he starts ready to deposit in bank a sufficient sum of money to pay the cost of analysis by any first-class chemist whose analysis fails to verify the absolute purity of his paint. Try them by this test and see if they really believe the paint they offer to sell you is pure. The public has been deceived too much and too often on mixed paints. Our paint costs you no more than other dealers ask you for adulterated and short measure gallons.

## CAUGHT BETWEEN THE CARS.

D. F. Brewer, a Brakeman, Painfully Hurt at Mt. Pleasant.

D. F. Brewer, a brakeman, was badly hurt at Mt. Pleasant last Wednesday while attempting to make a coupling. He was standing between the cars, when the engine started back suddenly, catching him and sending the iron rod of a patent coupler almost through his body. He was brought to Columbia on the evening train and carried to his home on South High street, where he is resting as easily as could be expected. The injury, while not necessarily dangerous, is very painful and it will no doubt be some time before he will be able to be out again. His friends sympathize with him in his misfortune.
